Task 1.

Find the Japanese locations in the find a word over the page.

Task 2.

In your notebook, write in hiragana that you wish to go to each place using the sentence below. You will need to use your hiragana chart in your notebook to write the place names correctly.

_____ へ いきます。
(place) (e) (ikimasu)

Note that "e" is written "he" when using ikimasu (to go). This is similar to "wa" being written as "ha" when we say "Watashi wa Kylie desu."

Task 3:

In your notebooks, you have a list of ten places you would like to go in Japan. Using the sentence structure above, write 10 sentences in hiragana to say that you are going to each place.

In English, write why you would like to go to each of the places you have listed. This will help with your meishi business adventure activity.

Task 4:

As part of your business adventure, you will need to introduce yourself to the class. You have already written a self introduction in your notebooks, but now we have covered likes, dislikes, sport and locations. In English, write details for a self introduction and we will translate these into Japanese over the coming lessons. If you are feeling adventurous, try to translate them using our notes since the beginning of the semester.

Remember, your self introduction at this stage should only cover information we have covered in class. We don't want to get too fancy yet!
